Alligator Clip with Female Header (10 Pack)

CAB-15186 ROHS

DESCRIPTION INCLUDES

This is a 10-pack of wires that are pre-terminated with an alligator clip on one end and a female header on the other. Alligator clips are a staple item for any workbench or makerspace, and with these cables you will be able to easily incorporate those clips into a breadboard, development platform or anything else to which you would normally be able to attach a hookup wire.

Each alligator clip with female header cable has a wire length of 30cm (that's a little less than 1ft) and a port that easily accepts a standard 0.1" connector.

Connector Basics

JANUARY 18, 2013

Connectors are a major source of confusion for people just beginning electronics. The number of different options, terms, and names of connectors can make selecting one, or finding the one you need, daunting. This article will help you get a jump on the world of connectors.
