GEOS

Tough • Flexible • Safe

GEOS - Industrial Outdoor Enclosure

High quality materials and an innovative design make the new GEOS series a universal solution and long lasting enclosure for indoor and outdoor applications. The UV and weather resistance of the high-quality polycarbonate and the new and innovative “Drain Protect” seal system guarantee optimal protection against most environmental influences, as well as rain, cold and heat. Even in tough conditions caused by aggressive atmospheres, oils, greases or mechanical stresses, you can rely on the GEOS enclosure. Certifications for the most varied applications give the user confidence at all times.

Tough
UV and weather resistant
Corrosion resistant
Temperature resistant -35° to 80°C
Rugged
High impact resistance - IK 09

Flexible
Modular component mounting system
Lightweight
Easily machined
Multiple mounting and closure options

Safe
Drain Protect seal system
Air ventilation element option
High protection rating IP67
Insulated protection
Safety agency approvals (cULus Type 4X)

c UL us
TYPE 4X
E254144

PROTECTION IP67

Altech by els spelsberg

The GEOS Family ranging up to 15.75 x 19.69 x 8.9 in.

Modular Component Mounting Features

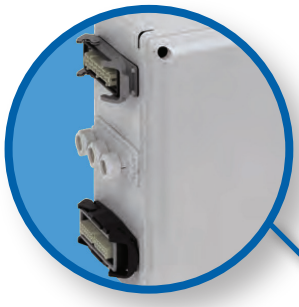

1. Functional installation system with mounting bracket
2. Tool-less installation of the mounting bracket in 25 mm increments
3. 4. Universally usable for mounting plates and standard rails
5. Different installation heights possible in the assembly bracket
6. Subsequent insertion of assembled modules
7. Partition walls

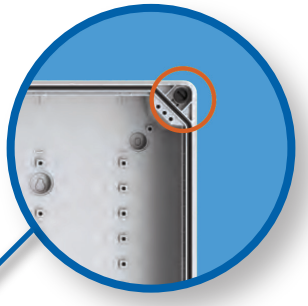

GEOS FEATURES

All round protection through "Drain Protect"
- Lasting protection against moisture
- Diverts moisture to backside of enclosure

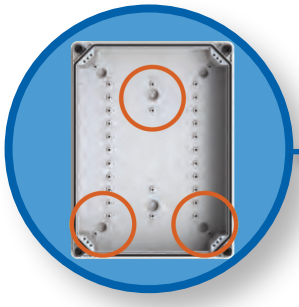

Optimized box dimensions
- Flexible assembly of heavy-duty industrial plug-in connectors.
- For universal use in different applications
- Sidewall will fit Bel Air M40 ventilation set.

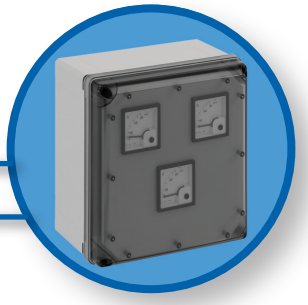

Mounting outside the sealing area
- UL-compliant installation
- Installation of assembled enclosure
- Maintains seal ratings

Three-point mounting
- Easy installation via keyhole mounting

Mounting standoffs in the cover or on top of the base
- Used for installing displays and controls behind the cover

1/4 turn screws
- Easy access via 1/4 turn screws as standard
- Conventional screws available, see page 13

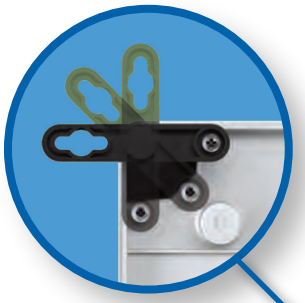

Screw position is visibly verifiable.

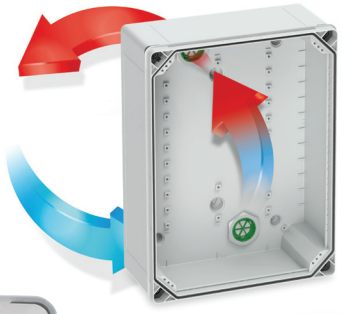

Altech Corp.® • 35 Royal Road • Flemington, NJ 08822-6000 • Phone 908.806.9400 • Fax 908.806.9490 • www.altechcorp.com

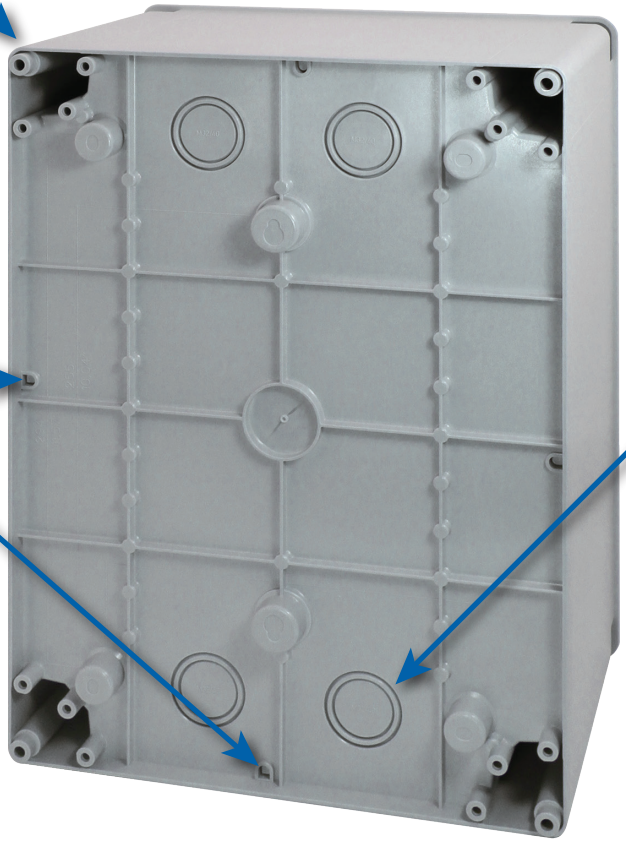

GEOS FEATURES

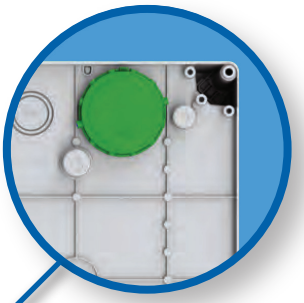

Altech by els spelsberg

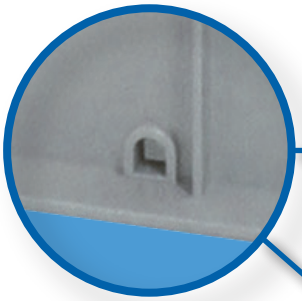

Optional external fastening
- Installation of assembled enclosures
- Available in 2 heights (10 mm or 40 mm)
- Clearance from wall for optimum laying of cables
- Installs at 0°, 45°, 90°

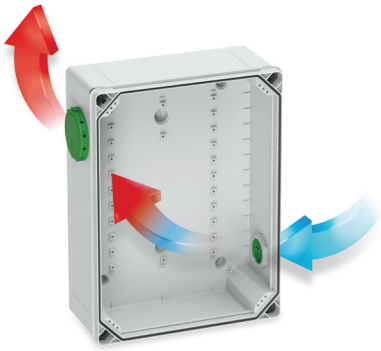

Optional Drain Knockout
- Use of optional drain knockouts will reduce IP rating

Protection against condensation
- Preparation for BEL Air M40 ventilation elements (IP65 / UL Type 3R)

The Ventilation Element

The BEL Air ventilation element prevents condensation, while maintaining a high IP65 protection rating. Any condensation occurring is transported out of the enclosure immediately via air exchange. The continuous and high rate of air exchange allows the interior air to mix constantly with the environmental air and transports the moisture outwards. Air exchange also takes place in environments with almost constant air humidity and temperature, as the air in the interior of the enclosure heats up due to the components. Due to the permanent pressure equalization, all the enclosure parts, such as the seal, are relieved of pressure permanently.

Mounting option BEL Air M40
- M32/40 knockouts in the base
  The wall clearance is suitable for installing BEL Air M40 ventilation elements at ground level
- Option of mounting on the sides of the enclosure (milling of sidewall holes required)

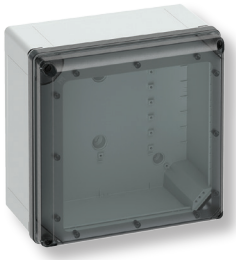

Advantages
- Prevention of condensation while maintaining a high IP 65 protection rating
- High air exchange rate
- 100% Pressure equalization
- 100% Protection against foreign bodies
- Maintenance-free

GEOS CABINET

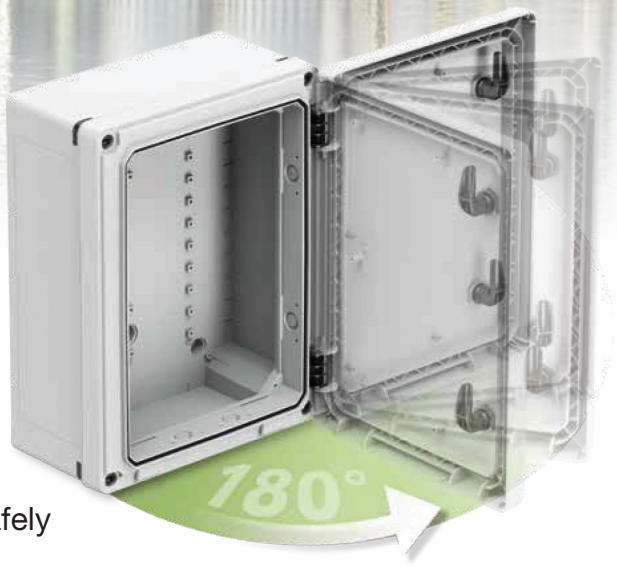

Optimized for rough outdoor applications

Now also in BLACK

Features

- Cover frame with hinged door
- Horizontal or vertical hinge layout
- Locking system - cam lock (3mm - two bit key)
- Transparent and grey doors
- 3 base sizes
- Up to 2 enclosure heights
- Cabinets tested according to IEC 61439, IEC 62208, UL 50, UL 50E, CSA 22.2
- UL TYPE 4X rated

Advantages

- Can be opened quickly and easily and closed safely
- Good operability of components
- No restrictions for the assembly of internal fittings
- Doors with wide opening angle > 180°
- Access to the interior space with standard locking system (3 mm - two-bit key)
- Alternative locking inserts available as accessories
- Doors are guided by frames to be solid
- Doors easily removed or reversed
- Frame accepts accessories (front plates, internal swing doors, contact protection modules, door stops, wiring)
