Quick Starter for Raspberry Pi 2 is HERE!

Notice: Raspberry Pi 2 not be included in the Quick Starter Kit for Raspberry Pi 2

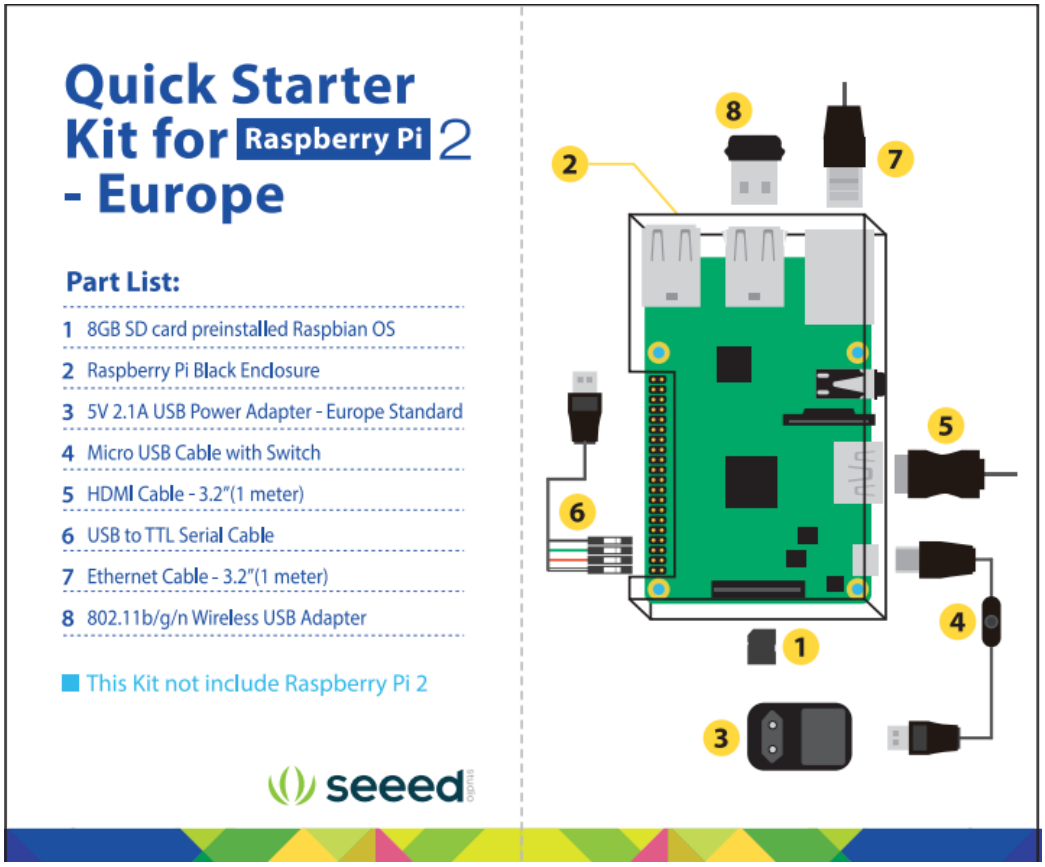
When you get your first Raspberry Pi 2 single-board computer, you have to prepare a lot of peripheral devices, such as B cable, SD card which must be installed OS, HDMI cable, etc. So, you may buy all devices online, and your time and money will be wasted.

But, Don't worry Be Happy. (It's a song from Bobby McFerrin (http://en.wikipedia.org/wiki/Bobby_McFerrin),I love it).
The New **Quick Starter for Raspberry Pi 2 is COMING!**

Quick Starter kit like a minimum system for Raspberry Pi 2, it means all must-have peripheral devices be included. Also, SD card preinstalled the Raspbian OS that you can play your Minecraft (http://www.raspberrypi.org/minecraft-its-here/) out-of-box

This pack contains:

Black Enclosure (http://www.seeedstudio.com/depot/Raspberry-Pi-B-Enclosure-Black-p-2135.html): An ABS plastic enclosure, easy to assemble.
5V 2.1A Power Adapter (http://www.seeedstudio.com/depot/American-Standard- B-Wall-Power-Supply-5VDC-21A-FCC-UL-p-1829.html): 2.1A Power Adapter is the good choice for Pi 2.
Micro B (http://www.seeedstudio.com/depot/Micro- B-Cable-w-Switch-p-2128.html) and HDMI Cable (http://www.seeedstudio.com/depot/Flat-HDMI-Male-to-Male-Cable-1MSupport-3D-For-HDTV-computer-tablets-cable-p-2142.html): There are a switch which B cable contains is built-in, so you can turn on/off easily. And the HDMI cable is 1 meters length.
B to TTL Cable (http://www.seeedstudio.com/depot/ B-to-TTL-Serial-Cable-Debugger-for-Dev-Board-p-1642.html):
B to TTL Serial Cable provides an easiest way to connect your microcontroller. It help you to log in Raspbian console via Putty (http://www.putty.org) or Screen (http://www.gnu.org/software/screen).
Ethernet Cable (http://www.seeedstudio.com/depot/Black-Ethernet-Cable-1-Meter-p-1811.html) and WiFi B Adapter (http://www.seeedstudio.com/depot/80211bgn-150Mbps-Wireless- B-Adapter-p-1497.html): Network devices, wire or wireless.



Features:

- Minimum kit to power up your Raspberry Pi 2
- Including 8GB SD Card preinstalled Raspbian OS
- Including micro B cable with switch
- Includeing WiFi B Adapter
- 5V, 2.1A power adapter with FCC/CE certificated - Europe Standard
- Including simply, but clear guide
- Not include unneeded devices

Specification:

- Power Adapter certificated：FCC, CE
- Europe Standard Power Adapter
- 802.11 b/g/n Wireless B Adapter
- Ethernet Cable length: 1 meter
- HDMI Cable length: 1 meter
- B to TTL Cable length: 1 meter
- Power Adapter Output: 5V, 2.1A
- Black Enclosure
- Package size：74*134*202mm

Include:

- 1x 8GB SD card preinstalled Raspbian OS
- 1x Raspberry Pi Black Enclosure
- 1x 5V 2.1A B Power Adapter - Europe Standard
- 1x Micro B Cable with Switch
- 1x HDMI Cable - 3.2”(1 meter)
- 1x B to TTL Serial Cable

- 1x Ethernet Cable - 3.2”(1 meter)
- 1x 802.11b/g/n Wireless B Adapter

Note:

- Both hardware and Enclosure are compatitable with Raspberry Pi 3 (http://www.seeedstudio.com/depot/Raspberry-Pi-3-Model-B-p-2625.html?ref=newInBazaar).
- The SD card which was preinstalled Raspbian OS doesn't compatitable with Raspberry Pi 3. If you want to use Raspberry Pi 3 with this Quick Starter Kit, you need to burn the new version Raspbian OS for SD card by yoursefl, here is a burn tutorial for you reference: http://elinux.org/RPi_Easy_SD_Card_Setup (http://elinux.org/RPi_Easy_SD_Card_Setup)

Seeed?

Seeed is a hardware innovation platform for makers to grow inspirations into differentiating products. By working closely with technology providers of all scale, Seeed provides accessible technologies with quality, speed and supply chain knowledge. When prototypes are ready to iterate, Seeed helps productize 1 to 1,000 pcs using in-house engineering, supply chain management and agile manufacture forces. Seeed also team up

with incubators, China tech ecosystem, investors and distribution channels to portal Maker startups beyond.
