Standoffs Plastic (4-40; 3/8"; 10 pack)

PRT-10461 ROHS

DESCRIPTION

These nylon standoffs are 3/8" long and tapped for a 4-40 screw. These are great for mounting your board in an enclosure, or just getting it up off the table. Each standoff has an outer diameter of 6mm.

Sold in packs of 10. Check below for matching screws.

Standoffs Plastic (4-40; 3/8"; 10 pack) Product Help and Resources

SKILLS NEEDED

Core Skill: DIY

Whether it's for assembling a kit, hacking an enclosure, or creating your own parts; the DIY skill is all about knowing how to use tools and the techniques associated with them.

Skill Level: Noob - Basic assembly is required. You may need to provide your own basic tools like a screwdriver, hammer or scissors. Power tools or custom parts are not required. Instructions will be included and easy to follow. Sewing may be required, but only with included patterns.

Please create a drawing for these. It would help when rendering projects in 3D. There is no width dimension listed.

>
> "I like to use 4-40 screws and 0.25" diameter plastic standoffs on everything. These 4-40 screws need a 0.13" diameter hole and the standoffs have a 0.25" outside diameter that we will need to take into account."
>
> Hope that helps!

What if Sparkfun made these red? How awesome would that be?

Maxwellfire / about 5 years ago / ★ 1
what about a washer
