Features

40.6 cm Power Strip Delivers Electricity to 6 Devices at the Same Time Compatible with standard electrical equipment, this ProtectIt!® power strip features six BS1363A outlets and a durable white plastic housing. It is ideal for powering almost anything with a compatible plug, including computers and mobile devices to appliances and power tools.

Allows Flexibility in Placing the Power Strip Away from the Wall The BS1363A plug is attached to a 1.8-meter power cord, which gives you more choices in placing the power strip away from the connected AC outlet.

Vertical or Horizontal Mounting for Desks and Workbenches Keyhole-shaped mounting slots on the back of the power strip allow you to permanently install it on any flat surface, including walls, with user-supplied hardware.

Premium Safety Features Designed for Protecting Your Valuable Equipment The PS6B18 features an on/off switch with diagnostic LED that provides one-touch control over all connected devices.
