Home / FPGA & SoC / Libero Design Software / Licensing / Gold

Gold License

Overview Ordering

Gold license is a paid license with one year validity. It is available with all versions of Libero SoC PolarFire, Libero SoC and Libero IDE softwares. Gold license supports Mixed language simulation with programming and debug features .

If you already purchased a Gold license and received a Software ID from Microsemi, Generate your new Gold License here
Gold license supports individual (Disk ID & USB node locked), and network (floating) license

Important Note:

- Disk ID node locked license and USB dongle node locked license does not support remote login

Supported Devices:

Product Family	Device	Libero Version
PolarFire	MPF100	Libero SoC PolarFire
	MPF200, MPF300TS-1FCG1152I and MPF300TS-1FCG484I (Both Kit Devices)	
SmartFusion2, IGLOO2	All Devices (including security)	Libero SoC v11.8 and later
	M2S005, M2S010, M2S025, M2S050, M2S060, M2GL005, M2GL010, M2GL025, M2GL050, M2GL060	Libero SoC v11.7 SP3 and earlier
SmartFusion, IGLOO, ProASIC3, and Fusion	All Devices	Libero SoC v11.8 and later
		Libero SoC v11.7 SP3 and earlier
RT ProASIC3	RT3PE600L	Libero SoC v11.8 and later
		Libero SoC v11.7 SP3 and earlier
ProASIC and ProASIC^{PLUS}	All Devices	Libero IDE
RTAX-S	RTAX250S, RTAX1000S	
RTSX-SU	All Devices	
Axcelerator	AX125, AX250, AX500, AX1000	
SX-A, eX, MX	All Devices	

Licensing Feature Table:

The below table provides the list of features available with Gold license.

License Features	Gold
	Paid
License Term	one Year
Libero Design Software	✓
Licensing Requirements per Device	Refer 'Device License Selection Table'
IP Cores Bundle	Please refer to IP DirectCores for details
SoftConsole[1]	✓
ModelSim ME	✓
ModelSim Pro ME	✓
Synopsys Synplify Pro ME	✓
Synopsys Synphony Model Compiler ME[3]	✓
FlashPro[2]	✓
FlashPro Express[2]	✓
Synopsys Identify ME	✓

1. Libero SoC software integrates with SoftConsole v3.4 SP1 which supports Windows platform only. Linux users need to install standalone software seperately to work on the Linux platform.

2. FlashPro is not supported on Linux platform. Linux users need to use FlashPro Express to work on Linux platform.
3. The Synphony MC ME license is included with Libero floating licenses. If you are using a Libero Node-locked license you must request the Synphony license separately.
