DESOLDERING WICK 2MM

Weight 7 g

DESCRIPTION

The desoldering wick is a very practical aid during soldering. It is an interwoven copper wire soaked in flux to catch the solder. If you have a spot where you need to remove the solder, this tape will do a great job. Unlike the desoldering pump, this tape can completely remove the solder from the hole or from the pad.

• **Length**: 1.5m
• **Width**: 2.0mm

FEATURES

- Length: 1.5 m / 59.1"
- Width: 2.0 mm / 0.08"
