Dual-Port USB Car Charger for Tablets and Cell Phones with Quick Charge 2.0 Technology

MODEL NUMBER: **U280-C02-S-M6**

Built-in USB Micro-B cable with Quick Charge 2.0 and auto-sensing USB-A port allow you to charge 2 mobile devices, such as a tablet and cell phone, in your vehicle at the same time. Quick Charge 2.0 delivers up to 75% faster charging vs. conventional USB charging.

Description

The U280-C02-S-M6 Dual USB Car Charger lets you quickly and safely charge two USB-powered mobile devices in your vehicle at the same time. You and your passenger can connect your cell phones simultaneously to ensure full charges when you reach your destination.
Also ideal for tablets, MP3 players and other USB devices, the U280-C02-S-M6 features a built-in six-foot USB Micro-B cable with Quick Charge 2.0 technology for rapid charging of compliant devices. Available outputs include 5V 2A, 9V 1.67A and 12V 1.25A. The cable's auto-sensing technology allows it to also charge devices without Quick Charge capability at a maximum power output of 5V 2.4A. The specially coiled cable takes up much less space than a regular six-foot cable.
The U280-C02-S-M6's USB port also features auto-sensing technology that detects the connected device and automatically adjusts to the appropriate power level up to 5V 2.4A, perfect for fast-charging tablets and e-readers. It's also compatible with both Apple and Android, as well as other platforms.
This ultra-compact charger works with any standard 12V DC vehicle power outlet. A front-facing LED indicates successful charging.
